Address:

Mayfield

Price:

750.00 \$

Virtually new condition Ridgid 6.5 HP, 10.3 SCM twin tank, wheel-barrow style air compressor. The compressor was originally purchased for a sand-blasting application but was never used and has been in storage for several years. The compressor tanks were drained and dried before storage and the compressor was just serviced by R&B Mower in Chesterland, OH to change the oil and clean the carburetor. The compressor runs impeccably and is in like-new visual and operating condition. This is a two-handed compressor with one pneumatic tire that is job-site ready. Local pick-up only. PayPal, Cash or credit card accepted (no AMEX). Contact at K8IG@arrl.net; 440-668-2400
